Toilet Paper Roll Penguin

Building Materials:

- empty toilet paper rolls
- black, white, and orange construction paper
- penguin templates
- tape
- stick glue
- scissors
- hole punch
- black marker
- yellow feathers (optional)

Directions:

1. Print and cut out the penguin templates.
2. Wrap the black construction paper around the toilet paper roll and glue in place.
3. Glue the white belly (upside-down “U” shape) on the penguin.
4. Punch two holes in a white piece of paper. Draw a small black dot in the center of each circle. Glue the circles on for eyes.
5. Cut a small triangle out of the orange construction paper for the bill. Glue it on the penguin under the eyes.
6. Glue one black wing on each side of the penguin. Glue just the top of the wing and fold the bottom of the wing to make it stand out.
7. Tape or glue the two feet inside the tube and fold outwards.
8. Optional: Cut two small pieces of a yellow feather and tape inside the top of the roll for a crest. (We left this off for the STEM challenge.)
